

WS5: Pizza Concept Store

Welcome to the Pizza Concept Store – a place where pizzas aren't the only thing getting cooked.

Assignment

Your assignment is to visit the store at <https://websec.hofnar.ro/> and uncover the hidden vulnerability.

Explore the site and interact with its features. The goal is to find the flag hidden somewhere in the application. You'll know it when you see it.

Your credentials have been sent to the email address you've declared in Moodle.
Make sure to also check your spam/junk folder.

Find the flag and submit it via Moodle, together with a short description of how you found the flag.

Good luck and don't trust everything you see on the surface!
